

Fine Art A Level

Eduqas

This creative practical course will enable you to make personal visual responses to your experiences, environment and culture. You will develop skills in drawing, painting, printmaking, collage, mixed-media, sculpture and digital drawing.

The course includes both theory and practical work. You will learn about and artists and explore the ideas which can be communicated through visual art.

Course Structure

This is a linear two-year course. In the first year you will complete short projects developing new and existing skills, and ways of expressing your ideas. You will develop one of these projects into your Year 2 coursework.

Skills & Knowledge

During this course you will visit exhibitions, exhibit your work and submit your work for selection in external photographic events and group shows.

Assessment

The course is assessed on two coursework projects; The Personal Investigation (60%) and The Externally Set Assignment (40%). Both projects will be marked internally and moderated externally.

Opportunities & Enrichment

In-house Enrichment activities such as Art History and Critical Thinking or Art Techniques and Processes will complement your course and give you the opportunity to expand on your subject knowledge and skills.

Future Careers & Pathways

A Level Art teaches you transferable skills in visual awareness and analysis, creative thinking. In the past Photography students have progressed onto degrees in art, design, media, interior architecture design, graphic design, events' management, journalism, advertising, business, and other art-related subjects.
